Summary

Self-starting professional with experience working as a team and acquiring new skills within the workforce. Seeking to employ accumulated and taught skills in problem-solving and coding, as well as communication and organization, to obtain a position as a Front-End Developer.

Education

Seneca College   **Sept. 2018 – May. 2021**
Computer Programming & Analysis Advanced Diploma   Toronto, ON
- *Presidents Honour List with a 3.8 GPA*

Skills

React, Redux, Node.js, Express.js, Python, JavaScript, CSS, Angular, RESTful API's, HTML5, NoSQL, MongoDB, Django, TypeScript, Sass, MySQL, jQuery, Bootstrap, AJAX, Git, GitHub, SQL, Java

Projects

ShopNS – Full-stack e-commerce site
Links: https://shopns.herokuapp.com/ , https://github.com/KMyers292/ShopNS
Environment: React, Redux, JavaScript, Express.js, Node.js, NoSQL, HTML, CSS
- Developed, designed, and deployed a mock e-commerce site using React frameworks and Redux that presents local items from around Nova Scotia by applying good coding practices such as proper documentation and version control.
- Engineered an API from scratch using Express and Mongoose/Mongo to ensure smooth usage of the NoSQL database from the backend to frontend.
- Programmed a fully functioning shopping cart and checkout service by working with the PayPal API for a reliable user experience.
- Overhauled the fetching and displaying of data by integrating sorting and search functionality to allow for improved UI accessibility.

Netflix for local media – Current work in progress
Environment: Electron, React, JavaScript, Node.js, HTML, CSS, Bootstrap
- Building a desktop application using the Electron framework to view and play locally stored media in a more visually appealing format, such as a Netflix style front-end.
- Working with 3rd party API to provide data about local media if it should match a movie/TV show in the API database.
- Currently working to learn and overcome technical challenges in opening and playing local media through the browser.

Work Experience

Stella Jones   **Oct. 2016 – July. 2022**
Plant Operator   Stouffville, ON
- Maintained pressure treating plant independently using applied knowledge to ensure reliable productivity.
- Adhered to tight deadlines by improving efficiency in operations, becoming the highest producing plant in Canada.
- Promoted to train new employees by coaching and assisting personnel for a smooth on boarding process.
- Needed flexibility in schedule to take care of personal family matter, which is why I left this role.

Home Hardware   **Feb. 2008 – Sept. 2016**
Warehouse Supervisor   Jeddore, NS
- Supervised a small team of people to ensure orders were being completed correctly and on time.
- Developed and delivered training to new employees, leading to a reduction of incorrect orders and higher output.
