Objective

Self-starting professional with 10+ years of experience working as a team and acquiring new skills as a leader within the construction industry. Seeking to employ accumulated and taught skills in problem-solving and coding, as well as communication and design, to obtain a position as a junior developer.

Education

Computer Programming & Analysis Advanced Diploma   **09/2018 – 05/2021**
Seneca College – Toronto, Ontario
Graduated With Honors and 3.8 GPA

Skills

React	Redux	Node.js	Express.js	Python
JavaScript	CSS	Angular	PHP	HTML
NoSQL	Java	Django	Laravel	Sass
TypeScript	jQuery	Bootstrap		

Projects

CampNS
Links: https://campns.herokuapp.com/ , https://github.com/KMyers292/CampNS
Environment: JavaScript, Express.js, Node.js, EJS, NoSQL, HTML, CSS
- Built a full-stack website by designing, coding, and testing a site that showcases the best places to camp in Nova Scotia.
- Programmed a full backend using Express.js and Mongoose/Mongo to allow efficient CRUD capabilities to and from the NoSQL database.
- Developed a solution to have forecasts and nearby amenities for each campground by retrieving data from APIs to create an improved user experience.
- Integrated a login system using Node packages to expand knowledge on frontend security and injection attacks.

ShopNS

Links: https://shopns.herokuapp.com/ , https://github.com/KMyers292/ShopNS

Environment: React, Redux, JavaScript, Express.js, Node.js, NoSQL, HTML, CSS

- Developed, debugged, and deployed a mock e-commerce site using React and Redux that presents local items from around Nova Scotia.
- Engineered an API from scratch using Express and Mongoose/Mongo to ensure smooth usage of the NoSQL database from the backend to frontend.
- Programmed a fully functioning shopping cart and checkout service by working with the PayPal API for a reliable user experience.
- Overhauled the fetching and displaying of data by integrating sorting and search functionality to allow for improved accessibility.

Work Experience

Plant Operator   10/2016 – 08/2021

Stella Jones – Stouffville, Ontario

- Maintained pressure treating plant independently using applied knowledge to ensure reliable productivity.
- Adhered to and surpassed tight deadlines by improving efficiency in operations, becoming the highest producing plant in Canada.
- Promoted to train new employees by coaching and assisting personnel for a smooth onboarding process.

Warehouse Supervisor   02/2008 – 09/2016

Home Hardware – Jeddore, Nova Scotia

- Supervised a small team of people to ensure orders were being completed correctly and on time.
- Developed and delivered training to new hires, leading to a reduction of incorrect orders and higher output.
- Scheduled and completed daily inspections of warehouse stock, ensuring depleted stock was ordered on time.
- Assisted customers to make sure their needs were met, resulting in an increase in returning clients.

Lead Hand Scaffolder   02/2014 – 01/2016

Panels & Pipes – Fort Mackay, Alberta

- Directed a small team to complete projects by identifying and resolving issues, surpassing tight deadlines.
- Responsible for communicating and organizing safety standards for the team to reduce accidents and lost time.
- Coordinated with outside contractors to ensure successful project delivery, leading to the promotion of the team to more special projects.
